Didn't this actually existed, since I bought the entire bundle. But jesus christ if I were to buy this seperately, I'd rather swallow that money than buy this. It's quite literally an in-game item that doesn't do anything special and should've been in the base game.. Didn't this actually existed, since I bought the entire bundle. But jesus christ if I were to buy this seperately, I'd rather swallow that money than buy this. It's quite literally an in-game item that doesn't do anything special and should've been in the base game.. Got it from GOTY edition ;). Greedy business tactics from the publishers side. The game is very enjoyable but this 1\$ DLC is a joke.. Not worth the money, even if you want to pay to have an easier game. Its bonus are simply not that good. Use it if you got the season pass, but otherwise ignore this DLC.. This is not DLC, it's something that should've been in the base game, not worth it if you didn't get the season pass. DLC implies content that changes the game majorly and this doesn't, DLC shouldn't exist to begin with.. Got it from GOTY edition ;)
